Overview

Fidelity and TIAA-CREF remain as the current service providers to the Optional Retirement Plan.

Total assets in the Fidelity plan have increased from \$107.3 million to \$192.9 over two years ending December 31, 2013. The increase in plan assets was from net contributions totaling \$39.3 million and investment gains of \$46.3 million. Contributions for the period were \$50.8 million and disbursements were \$13.1 million. There were only small, positive transfers from other providers. As of December 31, 2013, 49.7% of plan assets were invested in the Fidelity Freedom funds. In addition, 75.3% of 2013 plan contributions were directed to those funds, which is up from 61.7% at the end of 2011. The Fidelity Contrafund, Fidelity Freedom 2035, and Fidelity Freedom 2040 funds were the top three funds in terms of plan assets. As of December 31, 2013, there were approximately 7,232 participants in the Plan, a significant increase from 5,472 in 2011. 287 participants had their entire balance invested in one fund (excluding the Fidelity Freedom and the Fidelity Balanced funds).

In 2012, the Fidelity Equity Income fund was replaced with the BlackRock Equity Dividend Fund. Additionally, the Fidelity Spartan Small Cap Index Fund and the Fidelity Spartan Global ex-US Index Fund were added as passive investment options.

The majority of the State of Maryland ORP assets remain in the TIAA-CREF plan. As of December 31, 2013, plan assets totaled roughly \$2.5 billion, a two-year increase of \$523.5 million. Plan contributions of approximately \$149.6 million were offset by disbursements of \$179.1 million. Investment gains for the two years totaled \$554.0 million. There were also \$1.0 million in payouts for transfer payout annuity re-investments, QDRO splits, minimum distribution transfers, GRA withdrawal changes, and transfers from RA/GRA to TPA contracts. As of December 31, 2013, 35.5% of plan assets were invested in the TIAA Traditional account. However, only 30.9% of 2013 plan contributions were directed to that investment option. Nearly 66% of Plan assets are invested in the TIAA Traditional and CREF Stock funds. There were approximately 33,133 participants in the Plan at the end of 2013, of which approximately 6,910 (excluding the CREF Social Choice and TIAA-CREF Lifecycle funds) have their entire balance invested in one fund. Of the 6,910, 71% (almost 4,900 participants) invest solely in the TIAA Traditional.

In 2012, several passive investment options were added to provide a low cost investment alternative. The following changes were made to the TIAA-CREF platform:

- The Vanguard S&P 500 Index Fund was added as a large-cap core passive equity option.
- The TIAA-CREF Small-cap Blend Index Fund was added as a small-cap core passive equity option.
- The Vanguard Total Bond Market Index Fund was added as an intermediate core passive bond option.
- The Vanguard Total International Stock Index Fund was added as an international large-cap core passive equity option.

TIAA-CREF Recommendation Summary

Revenue Structure Recommendations*:

In the fall of 2013, TIAA-CREF proposed a new revenue structure for the Plan. TIAA-CREF’s required revenue for services (recordkeeping, on site services, communication/education) equate to 14.4 basis points (bps). This is a decrease of 4.6 bps from the current revenue requirement of 19 bps. The current investment line-up produces approximately 19 bps of revenue, equal to TIAA-CREF’s requirement.

With the new revenue structure, TIAA-CREF proposed changes to the investment line-up so that the State and participants could take advantage of lower share classes for several of the investment options. The chart below outlines the current structure versus the proposed structure (highlighted cells reflect share class changes):

Maryland Optional Retirement Plan

The investment line-up would generate 18 bps of revenue sharing. The difference between the new 14.4 bps requirement and the 18 bps generated would be returned to the State on a semi-annual basis. This money can then be used for qualified plan expenses or returned pro-rata to participants accounts.

If this transition is approved, the Plan would have the lowest shares classes available across the investment line-up.

Segal Rogerscasey and Staff recommend the Trustees accept TIAA-CREF's proposed fee structure.

Investment Terms:

- * ***Expense Ratio:*** The cost it takes an investment company to operate a mutual fund. It includes investment management, operation, marketing, and revenue sharing.
- * ***Revenue Sharing:*** The portion of a mutual fund's expense ratio that is returned to the recordkeeper to offset expenses. Any excess not used to cover recordkeeping expenses would be returned to the plan sponsor.

Additional Investment Recommendations:

Segal Rogerscasey and Staff are recommending replacing the TIAA-CREF Mid-Cap Value and TIAA-CREF Mid-Cap Growth funds with the Vanguard Mid Cap Index Fund. Replacement is recommended to consolidate the investment line-up and due to performance issues. Assets from the two funds should be mapped to:

Fund Investment Policy

The Fund seeks to track the performance of a benchmark index that measures the investment return of mid-capitalization stocks. The Fund employs a "passive management" approach designed to track the performance of the MSCI U.S. Mid Cap 450 Index, a broadly diversified index of stocks of medium-size U.S. companies.

Fidelity Recommendation Summary

Revenue Structure Recommendations*:

Through discussions with Staff and Segal Rogerscasey, Fidelity proposed a new revenue structure for the Plan. Fidelity's required revenue for services (recordkeeping, on site services, communication/education) equate to 16 basis points (bps). This is a decrease of 14 bps from the current revenue requirement of 30 bps.

With the new revenue structure, Fidelity proposed changes to the investment line-up so that the State and participants could take advantage of lower share classes for several of the investment options. The chart below outlines the current structure versus the proposed structure (highlighted cells reflect share class changes):

Maryland Optional Retirement Plan

The investment line-up would generate approximately 17 bps of revenue sharing. Fidelity is also proposing a \$25,000 annual revenue credit to the State that could be used to pay for qualified plan expenses or returned pro-rata to participants accounts.

If this transition is approved, the Plan would have the lowest shares classes available across the investment line-up.

Investment Terms:

- * ***Expense Ratio:*** The cost it takes an investment company to operate a mutual fund. It includes investment management, operation, marketing, and revenue sharing.
- * ***Revenue Sharing:*** The portion of a mutual fund's expense ratio that is returned to the recordkeeper to offset expenses. Any excess not used to cover recordkeeping expenses would be returned to the plan sponsor.

Additional Investment Recommendations:

Segal Rogerscasey and Staff recommend replacing the Fidelity Small Cap Stock Fund with the DFA US Small Cap Stock Fund. Replacement is recommended due to low style consistency, continued underperformance relative to the benchmark and peers, and poor risk statistics (high downside capture and low information ratio). Assets should be mapped from Fidelity Small Cap Stock to DFA US Small Cap Stock.

Dimensional Fund Advisors ("DFA") was established in 1981 by Rex Sinquefeld, David Booth, and five other investment professionals. The firm is headquartered in Austin, TX and employs over 700 individuals across 10 offices worldwide including Santa Monica, London, Sydney, Singapore, and Tokyo. DFA's investment philosophy and process were formed on the basis of Eugene Fama and Kenneth French's 1992 paper, "The Cross-Section of Expected Stock Returns." The strategies are based on the principles of modern finance and capital market efficiency.

This Fund seeks to achieve long term capital appreciation by purchasing a broad and diverse set of readily marketable securities within the U.S. small cap universe, which is defined as the lowest 10% of total market capitalization or smaller than the 1,000th largest U.S. company, whichever is greater. DFA utilizes a team approach, with distinct units focused on research, portfolio construction, and trading. Senior level DFA professionals have remained relatively stable over time. As a quantitative strategy, the Small Cap Portfolio is not actively managed in the traditional sense, and the investment process does not include unique company, industry, or country insights. Rather, the investment model targets securities satisfying specific risk and return characteristics defined by the Investment Committee. Typically, investment decisions are not influenced by forecasts for the economic forecasts, securities markets or issuers. The investment resources of the firm are augmented with direct affiliations with academic researchers who support and develop the quantitative models utilized by Dimensional.

2. Approve the creation of a revenue credit account structure whereby TIAA-CREF will credit the account, semi-annually, the difference between the actual revenue generated by the investment line-up and the required revenue. Assets can be used for qualified plan expenses or returned pro-rata to participants.

3. Approve the replacement of the TIAA-CREF Mid-Cap Value and TIAA-CREF Mid-Cap Growth with the Vanguard Mid Cap Index Fund Institutional (VMCIX).
 - a. Replacement is recommended for two reasons: consolidate the investment line-up and due to performance issues.
 - b. The proposed fund, Vanguard Mid Cap Index Fund Institutional (VMCIX) has an expense ratio of 0.08%.
 - c. Assets should be mapped from the TIAA-CREF Mid-Cap Value and TIAA-CREF Mid-Cap Growth to the Vanguard Mid Cap Index Fund.

State Retirement Agency of Maryland Optional Retirement Plan Vendor Survey

Segal Rogerscasey conducted a survey of ninety-two Plan Administrators of the Maryland Optional Retirement Plan. The survey was designed to gather feedback on the Plan's design and its current vendors. Survey respondents were mainly asked whether they were 'Unsatisfied', 'Satisfied' or 'Very Satisfied' with certain aspects of the Plan and were also given space to provide commentary.

Survey topics included:

- General issues
- Investment options
- Administrative services
- Communication and education services
- Technology and customer service

A total of twenty-four (24) Plan Administrators responded to the survey.

General Issues

The Survey found that the Plan Administrators are happy with the overall structure of the ORP as 100% responded that they were satisfied or very satisfied.

- ***TIAA-CREF***
 - All of the respondents were satisfied with TIAA-CREF's issue resolution service and mentioned that TIAA is responsive to inquiries on behalf of employees.
 - All respondents were satisfied with TIAA-CREF as a plan sponsor
- ***Fidelity***
 - The majority of respondents were satisfied with Fidelity; however, the survey found that 21% of respondents were unsatisfied with Fidelity's issue resolution.
 - A respondent noted that Fidelity requires a work order be opened for issue resolution, which can be very cumbersome
 - Respondents expressed some issues with Fidelity as a plan sponsor
 - Issues included challenges working with customer service, lack of access to their website portal, poor communication, and no clear representative to contact to resolve issues

We must note however, that Fidelity and TIAA-CREF use different models in regards to servicing the plan and participants. Fidelity employs a model, which relies heavily on technical support and use of its internet website. Although Fidelity has representatives to conduct seminars and attend new enrollment meetings, it does not offer a significant number of field representatives to support the colleges and universities. In addition, Fidelity only has \$193 million in Plan assets. TIAA-CREF favors a servicing model relying on people on the ground and offers a dedicated group of field representatives available to meet with participants in all the colleges and universities. TIAA-CREF also has over \$2.5 billion in assets.

Investment options

Almost all of the respondents were satisfied or very satisfied with the number and quality of the Plan's investment options for both TIAA-CREF and Fidelity. A single respondent stated that she often receives inquiries regarding the inclusion of more investment options.

Administrative services

As a whole, respondents were generally satisfied with the administrative services provided.

- **TIAA-CREF**
 - Based on feedback, has shown satisfactory performance
 - Most respondents said that they were satisfied with the responsiveness, timeliness, and the ease of use of the administrative services.
 - One respondent commented that an HR Administrator cannot change an employee's address. They said that it would make things more streamlined if an employer can assist with those types of changes.
 - Another respondent asked for more automation as it relates to employee maximums for supplemental plans. They would like to see an automatic cessation of biweekly deductions when an employee reaches the maximum for the calendar year; this would eliminate much of the manual effort and calculation at the campus level.
- **Fidelity**
 - 33% of respondents were not satisfied with Fidelity's responsiveness; this appears to be due to Fidelity's lack of field support
 - Over 20% of the respondents said that the ease of use of the administrative services is unsatisfactory and indicated that it was cumbersome
 - Someone commented that the employee-terminations data does not seem to update properly with Fidelity and they will typically manually update term data through the website.
 - 33% stated that they were not satisfied with the timeliness of services and reports.

The majority of responses suggest that both providers have been easy to work with; however, Fidelity received more negative responses than TIAA-CREF.

Communication and education

Respondents were largely satisfied with the communication and education services provided by both recordkeepers.

- **TIAA-CREF**
 - All of the Plan Administrators stated that they are satisfied
 - All respondents were satisfied with the level of education that the Plan participants are receiving
 - A few respondents stated that they would like their representatives to reach out more often to provide information and counseling sessions as opposed to coming only when requested.
 - Four respondents said indicated there is no education specifically for new employees and it is up to the plan administrators to educate new hires on the plan based on the comprehensive packets they receive.

- 13% of the respondents were unsatisfied with the level of field representative support available.
 - They stated they are happy with the efforts of their representatives but the representatives could use some additional support, as they seem overwhelmed.
 - One respondent commented that they would like to see more coordination between TIAA-CREF's national office and the USM representatives because when an employee contacts the main TIAA-CREF help line, TIAA-CREF does not distinguish between the specific campuses and this creates problems.
- **Fidelity**
 - All of the Plan Administrators stated that they are satisfied
 - 48% of respondents said that they are unsatisfied with Fidelity because Fidelity does not offer anything for new employees, including calls or visits; the benefit coordinators handle new employee education and rely on the packets provided by Fidelity.
 - A number of respondents expressed dissatisfaction with Fidelity's lack of field support.
 - Those who do have a representative stated that it is hard to book appointments since the field representatives seem to be overextended.
 - A single respondent said that they have gotten more support recently and were given dedicated days for campus visits.

Technology

100% of respondents said they are satisfied with the websites of both providers. More than 90% of respondents said that Fidelity and TIAA-CREF's websites are user friendly and easy to navigate.

However, one respondent stated that it is difficult to navigate when entering separate information for a number of employees. This respondent found the process to be cumbersome. The respondent noted that they do not receive participant feedback on the Customer Service Center for either vendor.

Conclusion

The respondents were generally satisfied with the overall Plan, the vendors and the services they provide to the HR Benefits staff and participants. Some respondents listed a number of things that they feel would enhance the program, which are listed in the appendix.

For TIAA-CREF, respondents stated that participation rates for eligible employees range from as little as 10% to as much as 90%. Respondents were happy with the plan and had only a few suggestions for improvement.

For Fidelity, respondents stated participation rates among eligible employees as low as 5% and as high as 50%. As in past years, respondents had a number of issues that they would like to see addressed. The primary change requested, which has consistently been requested by participants, is an additional presence by representatives on campus to at least twice a year. A respondent stated that they could achieve greater participation if Fidelity made a better effort. Staff may want to consider working with Fidelity to enhance its overall presence at the colleges and universities.

7) Fidelity customer service is very challenging to work with for issues with the ORP since we do not have access to Fidelity website portal for ORP issues. I have tried countless times to have a Fidelity retirement counselor come to our campus and cant get anyone to come out.	13) Fidelity does not offer much support to us as the plan sponsor. In comparison with TIAA-CREF, they are more difficult to communicate with, and more difficult to solve problems. They continually lump our employees as university of maryland employees and that is not the case. I don't even know who we are supposed to contact, or who our representative is.	19) Sometimes I have problems finding a person to contact to have resolution take place at Fidelity.	21) Fidelity works with us to resolve issues.	23) We have virtually no contact with Fidelity and not even sure who our representative is. They never contact us.

What would you like to see added or changed?

1) At our institution we should do more education and take advantage of the resources available; no problem with what TIAA offers.	19) I would like TIAA-CREF to be more proactive about coming to our campus to meet with employees. They will come, but I have to reach out to them every time.	20) I would like to see reps reach out to us more often and offer to provide in-person information sessions or individual counseling sessions.	21) While our campus-dedicated representatives provide great education to participants, I would like to see more coordination of effort between the national office and the USM Representatives because when the employee contacts the main TIAA-CREF help line, they do not distinguish between the specific campus and this creates problems.

Comments:

1) Our representatives (Elsie & Alcira) are super knowledgeable and helpful! However, I believe that they need additional support because we cannot have a representative on campus once a month due to scheduling conflicts. Our representative are extremely supportive and responsive (they even follow-up when out of the office or late at night after business hours) but I feel that TIAA should give them additional support. However, I want to be clear that they do a exceptional job with trying to accommodate our requests.	4) Although satisfied, our field representative could use some help, she seems to have a heavy load.	7) Our TIAA-CREF field representative is fantastic! He contacts me on a regular basis to schedule on campus appointments for our staff. I am very satisfied with our rep	9) There now seems to be stability with Mark Peloquin.
11) We seem to change consultants frequently.	16) Have never asked for support	19) There is constant change with account representatives and they sometimes do not pass along who the contact is.	20) They seem to be pretty overloaded so when we do request site visits it's hard to schedule since their appointments are usually pretty booked.
			21) Elsie and Jahleel are VERY responsive to the needs of our employees and provide great service when called upon to resolve issues.

14) We don't receive "new employee education" unless you are talking about the packets?	16) Have not used this either	18) There is no new employee education other that what is provided by the benefit coordinators.	19) We don't receive new employee education. As Benefits Manager, I provide the information to new employees. I do have education packets and they seem to be comprehensive.	20) Not sure - what are employees receiving that is new? Do they get info mailed or e-mailed to them?
21) Have not received any complaints with on-line enrollment for employees.

1) I think that Fidelity should do better with a welcome packet. The official letter we get 4 weeks after enrolling tells you about the site, but it does not provide a lot of detail of what we should do next.	6) We cannot get anyone to come to our campus	19) Again, I would like to see Fidelity be more proactive in coming to campus to meet with our employees. I have to ask them each time to come to campus.	20) I would like to see reps reach out to us more often and offer to provide in-person information sessions or individual counseling sessions.	21) We are still working out some "kinks" related to the PAW. It is not as user friendly as we would have hoped. 23) How about some contact information?
How satisfied are you with the number of field representative support available?		8% Unsatisfied	71% Satisfied	21% Very Satisfied
Comments :				
1) We have gotten more support recently and are trying to build back up fidelity's reputation with us. They have given us several dedicated days to come to campus this year which hopefully will help fill up their counseling sessions (similar to TIAA)	3) Unlike TIAA-CREF, the College NEVER receives calls from Fidelity asking if they can come on-Campus to meet with employees.	7) There is NO field level support. I called the local office in addition to the national office to try and have campus visits scheduled and no one was interested in coming out to see our staff.	9) I haven't heard from Fidelity rep in a long time. If meetings are taking place at UB, I am not aware.	11) We have never had a field representative on campus or reach out to us.
13) Didn't even know they did this.	15) Although we do not have a person specifically assigned to the USM Office, we can usually put an employee in touch with a field representative rather quickly.	16) Never used	19) I believe that my employees get the help they need when they call Fidelity, but our representatives have not been good in working with candidates.	20) They seem to be pretty overloaded so when we do request site visits it's hard to schedule since their appointments are usually pretty booked.
21) Chris is very dedicated to our employee needs. However, he seems spread thin between the campuses. This may cause issues with responsiveness.	23) Extremely unsatisfied.

Comments:				
1) Most of the time things work smoothly. When they don't, TIAA tries to be responsive to us. We have had a few issues that we are working through. There seems to be a glitch with the termination process as this is something that we typically have to enter manually through the PSW.	11) Acceptable	19) I do find it strange that the HR Administrator cannot change an employee's address. Especially for an ORP account where the employee does not make a contribution only the State does. It just seems it would make things more streamlined if an employer can assist with those types of changes.	21) We would like to see more automation as it relates to employee maximum for supplemental plans. If there could be an automatic cessation of biweekly deductions when an employee reaches the maximum for the calendar year that would eliminate much manual effort and calculation at the campus level.

Comments:

1) As of more recently, we are more confident in the level of responsiveness.	19) It has been very difficult to get dates scheduled for representatives to be on campus for employee meetings. Sometimes, I do not get a response at all. I am always told that they are so busy at the UMD schools which is unfortunate that community college employees aren't valued in the plan. In fall 2013, Fidelity was not even present at our benefits fair because they couldn't find someone to send. This is the first time in my 15 years that no one has attended. The date was sent in advance with reminders and they had indicated they would attend. I later had a call that they couldn't make it.	21) Campus dedicated representative is very responsive to our inquiries on behalf of employees.

Are there any changes you would like to see in the Plan?

6) Yes, Enhance the fund options. Better service from the account and field reps.	11) No, I would prefer to have a dedicated rep who would come on campus for counseling sessions.	20) No, Not in the Plan in particular, but as noted above, additional presence of reps on campus a couple of times a year would be great. Employees request this constantly.	21) No, The overall process works well.

Are there any additional issues you would like to communicate to the Committee?

6) Yes, The account and field rep are not responsive. We would have more participants in Fidelity if they made an effort.	7) Yes, Fidelity is not responsive does not provide the level of service that TIAA-CREF does. I am very disappointed that we can not get anyone from Fidelity to come out and speak with our staff regarding their retirement issues, etc.	18) Yes, Employees are inquiring about Roth options.	19) Yes, It has been discussed amongst the community college level that we do not feel our account representatives are responsive to our accounts. It has been an ongoing problem with Fidelity. I would like to the Committee to consider this information as it is a frustration to the HR managers working with these accounts. It is an embarrassment to our employees that these are the representatives they need to work with on their retirement funds. Even if the customer service rep is knowledgeable, the other factors are hard to push aside.	
22) Yes, Field visits and communication, local representative more accessible.	23) Yes, Extremely unsatisfied with Fidelity as an ORP provider. Will not consider them as a supplemental plan vendor as a result of this experience.
